

# How do I share a post I see on my News Feed on Facebook?

:

To share a post you see on your News Feed:

1. Go to the GMWA Detroit Facebook page.
2. Below a post, click  **Share** in the bottom right.
3. Select where you want to share the post. You will see the following options:
  - **Share now** (if you click this you don't have to do anything else. It will automatically share to your page).
  - **Share to News Feed**  
You can customize the post (example: add a description) before you share it. If the post includes a link, you can choose to share the link by itself, or click next to **Include Original Post** to keep the text from the original News Feed post. You can click the [audience selector](#) to change your audience, then click **Post**.
  - Share to Your Story (Custom)
  - Share to a group  
Type the group name and add a description, then click **Post**.
  - Share on a friend's profile  
Type the group name and add a description, then click **Post**.
